

The Building Blocks of Acrylic Painting- A Starter Course Information Sheet

Hi!

This course is all about teaching you much of what I wish I was told just a little sooner in my learning process.

There is so much to learn and it can be overwhelming.

***So many products, techniques supplies!**

This is why it can be difficult to start, or to go to a workshop or a class.

The self doubt takes over and can take the wind out of your sails.

It's all so silly...right? I plan to help with that too.

Building Blocks of Acrylics-A starter course is designed for the beginner acrylic level. In a nutshell I will cover :

Supplies

mediums

how to use your brushes and which ones to buy?

mixing black, grey AND colour

basic compositional tips

values

warm and cool colours

And plenty more.

You will come away at the end with more confidence and understanding of this versatile medium and be able to move forward to either paint on your own or take a class without feeling like a fish out of water. You should be able to go into an art supply store and know what many of the items are and what they are used for.

The course consists of:

4-modules, 18-pre recorded lessons and 4-live zoom calls over 4 weeks.

The course will be available to you for 2 years, so you will be able to work on your own schedule or follow along each week.

A module will be released once a week with a project at the finish of each.

On thursdays at 11:00 I will have a one hour live zoom meeting which I will record so it will be available in the classroom for those who couldn't make it. I will answer your questions and see how you are doing.

Does this sound like it's for you? If you have any more questions please do not hesitate to contact me.
